

Figure 1 is a line graph showing the relationship between the percentage of total effort and the percentage of total catch for five fish species. The x-axis represents the 'Percentage of total effort' from 0 to 100, and the y-axis represents the 'Percentage of total catch' from 0 to 100. The species are: Yellow perch, Rock bass, White perch, Striped bass, and Rockfish. Yellow perch shows a high catch percentage for low effort, while Rockfish shows a high catch percentage for high effort.

Percentage of total effort	Yellow perch	Rock bass	White perch	Striped bass	Rockfish
0	0	0	0	0	0
20	80	10	10	10	10
40	70	20	20	20	20
60	60	30	30	30	30
80	50	40	40	40	40
100	40	50	50	50	80

Scientific and Technical Intelligence

1. The attached memorandum from Mr. McGeorge Bundy requests an assessment and report on the problem of improving the collection, coordination and analysis of intelligence concerning the scientific and technical capabilities of the Soviet bloc, as recommended by the President's Foreign Intelligence Advisory Board in its report to the President of 4 October 1961.

2. The attached request has been referred to the Assistant for Coordination and his Staff to undertake the required assessment on a community-wide basis and prepare a draft report by 15 December 1961 for USIB consideration and submission to the White House by 31 December 1961. In preparing this report, the Coordination Staff will consult with appropriate agencies and chairmen of USIB committees.

THE WHITE HOUSE
WASHINGTON

October 11, 1961

MEMORANDUM FOR THE CHAIRMAN
UNITED STATES INTELLIGENCE BOARD

SUBJECT: Scientific and Technical Intelligence - General
(Recommendation No. 15 of the October 4, 1961
Report to the President by the President's
Foreign Intelligence Advisory Board)

In its report to the President dated October 4, 1961, the President's Foreign Intelligence Advisory Board recommended that the United States Intelligence Board make an early and thorough assessment of the problem with a view to improving the collection, coordination, and analysis of intelligence concerning the scientific and technical capabilities of the Soviet bloc. Enclosed herewith for your information is a pertinent excerpt from the report of the President's Board.

The President has approved the recommendation and has requested that you furnish to this office and to the President's Foreign Intelligence Advisory Board a report on the results of the desired assessment by December 31, 1961.

/s/
McGeorge Bundy

SCIENTIFIC AND TECHNICAL INTELLIGENCE - GENERAL

We applaud the actions which have been taken in recent times by some of the member agencies of the intelligence community to improve their respective efforts to collect and assess information concerning the scientific and technical capabilities of the Soviet bloc. We believe, however, that some of these efforts have been piecemeal in character; that they have not been coordinated fully; and that they have not taken sufficient advantage of the scientific and technical competence available to our intelligence community both within and without the Government. Accordingly we recommend that the United States Intelligence Board make an early and thorough assessment of the problem with a view to improving the collection, coordination, and analysis of intelligence concerning the scientific and technical capabilities of the Soviet bloc.
